No use already established on the effective date hereof shall be so altered or modified as to conflict with, or further conflict with, the applicable performance standards established hereinafter for the district in which such use is located. No emission or by-product of any industrial use shall violate or exceed state Titles. It shall be the responsibility of all industrial uses to adhere to such Titles, including the obtaining of necessary permits.

Certification from an engineer or scientific testing laboratory approved by the City Council or its Designee, indicating that the use of the land and all processing either does or will comply with the applicable performance standards, shall accompany application for a zoning certificate. Where standards indicated here differ from those of state agencies, the more restrictive shall apply.

B. Noise: I-1 and I-2 Districts:

Sound levels shall be measured with a sound level meter and associated octave band filter manufactured according to standards prescribed by the American Standards Association. Measurements shall be made using the flat network of the sound level meter. Impulsive type noises shall be subject to the performance standards hereinafter prescribed, provided that such noises shall be capable of being accurately measured with such equipment. Noises capable of being so measured, for the purpose of this Chapter, shall be those noises which cause rapid fluctuations of the needle of the sound level meter with a variation of no more than plus or minus two (2) decibels. Noises incapable of being so measured, such as those of an irregular and intermittent nature, shall be controlled so as not to become a nuisance to adjacent uses.

At no point on the boundary of a Residence or Business District shall the sound pressure level of any operation or plant (other than background noises not directly under the control of the manufacturer) exceed the decibel limits in the octave bands designated below:

1. Vibrations within a district shall be controlled so as not to become a nuisance to adjacent uses.
2. No industrial operation or activity (except those not under the direct control of the manufacturer) shall cause at any time ground transmitted vibrations in excess of the limits set forth below. Vibrations shall be measured at any point along a Residence District

boundary line with a three (3) component measuring instrument approved by the Zoning Administrator, and shall be expressed as displacement in inches.

D. Toxic and Noxious Matter; I-1 and I-2 Districts:

No activity or operation shall cause, at any time, the discharge of toxic or noxious matter across lot lines in such concentration as to be detrimental to or endanger the public health, safety, comfort or welfare or cause injury or damage to the environment, property, or business. Determination of such adverse affects shall be made by the Zoning Officer.

CHAPTER 8 NONCONFORMING USES

- 2-8-1 Intent
- 2-8-2 Nonconforming Lots of Record For New Single Family Dwellings
- 2-8-3 Nonconforming Uses of Primarily Open Land
- 2-8-4 Nonconforming Structures Due To Not Meeting Bulk Requirements
- 2-8-5 Nonconforming Uses Within Structures
- 2-8-6 Repairs and Maintenance of Nonconforming Structures
- 2-8-7 Uses Under Special Exception Provisions

SECTION 2-8-1 INTENT

Within the districts established by this Title or amendments that may later be adopted there exists:

- A. Lots,
- B. Structures,
- C. Uses of land and structures, and
- D. Characteristics of use

Which were lawful before this Title was passed or amended, but which would be prohibited, regulated or restricted under the terms of this Title or future amendments, it is the intent of this Title to permit these nonconformities to continue until they are removed. It is further the intent of this Title that nonconformities shall not be enlarged upon, expanded or extended, nor be used as grounds for adding other structures or uses prohibited elsewhere in the same district.

Nonconforming uses are declared by this Title to be compatible with permitted uses in the districts involved. A nonconforming use of a structure, a nonconforming use of land, or a nonconforming use of structure and land in combination may be continued but shall not be extended or enlarged after the effective date hereof, shall not have attached on a building or premises, additional signs intended to be seen from off the premises, or shall not have the addition of other uses, of a nature which would be prohibited generally in the district involved.

To avoid undue hardship, nothing in this Title shall be deemed to require a change in the plans, construction or designated use of any building on which actual construction was lawfully begun prior to the effective date of adoption or amendment of this Title and upon which actual building construction has been carried on diligently. Actual construction is hereby defined to include the placing of construction materials in permanent position and fastened in a permanent manner.

Where excavation or demolition or removal of an existing building has been substantially begun preparatory to rebuilding, such excavation or demolition or removal shall be deemed to be actual construction, provided that work shall be carried on diligently.

SECTION 2-8-2 NONCONFORMING LOTS OF RECORD FOR NEW SINGLE-FAMILY DWELLINGS

In any district in which single family dwellings are permitted, a single-family dwelling and customary accessory buildings may be erected on any single lot of record at the effective date of this Title or amendment thereof, notwithstanding limitations imposed by other provisions of this Title. Such lot must be in separate ownership and not continuous frontage with other lots in the same ownership. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the district, provided that yard dimensions and requirements other than those applying to area

or width, or both, of the lot shall conform to the Titles for the district in which such lot is located. Variance of yard requirements shall be obtained only through action of the Zoning Board of Appeals.

If two (2) or more lots or combinations of lots or portions of lots with continuous frontage in single ownership are of record at the time of passage or amendment of this Title, and if all or part of the lots do not meet the requirements established for lot width and area, the lands involved shall be considered to be undivided parcels for the purpose of this Title, and no portion of said parcel shall be used or sold in a manner which diminishes compliance with lot width and area requirements established by this Title, nor shall any division of any parcel be made which creates a lot width or area below the requirements stated in this Title.

SECTION 2-8-3 NONCONFORMING USES OF PRIMARILY OPEN LAND

Where at the time of passage of this Title lawful use of land exists which would not be permitted by the Titles imposed by this Title, and where such use involves no individual structure with a replacement cost exceeding one thousand dollars (\$1,000.00), the use may be continued so long as it remains otherwise lawful, provided:

- A. No such nonconforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Title.
- B. No such nonconforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Title.
- C. If any such nonconforming use is abandoned for a period of six (6) consecutive months, and such abandonment is intentional, then any subsequent uses of such property shall conform to the regulations applicable in the district in which such property is located. (Ord. 2002-06)
- D. No additional structure not conforming to the requirements of this Title shall be erected in connection with such nonconforming use of land.

SECTION 2-8-4 NONCONFORMING STRUCTURES DUE TO NOT MEETING BULK REQUIREMENTS

Where a lawful structure exists at the effective date hereof of amendment of this Title that could not be built under the terms of this Title by reason of restrictions on area, lot coverage, height, yards, its location on the lot or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No such nonconforming structure may be enlarged or altered in a way which increases its nonconformity, but any structure or portion thereof may be altered to decrease its nonconformity.
- B. Should such nonconforming structure or nonconforming portion of structure be destroyed by any means to an extent of more than fifty percent (50%) of its value (including land value) at time of destruction, it shall not be reconstructed except in conformity with the provisions of this Title. However, acts of peril, beyond the property owner's control, shall not be grounds for discontinuing a nonconforming use.
- C. Should such structure be moved for any reason for any distance whatever, it shall thereafter conform to the Titles for the district in which it is located after it is moved.

(Ord. 1996-3, 1998-23, 2001-04)

SECTION 2-8-5 NONCONFORMING USES WITHIN STRUCTURES

If lawful use involving individual structures with a replacement cost of one thousand dollars (\$1,000.00) or more, of structure and premises in combination, exists at the effective date of adoption or amendment of this Title, that would not be allowed in the district under the terms of this Title, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

- A. No existing structure devoted to a use not permitted by this Title in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.
- B. Any nonconforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Title, but no such use shall be extended to occupy any land outside such building.
- C. If no structural alterations are made, any nonconforming use of a structure, or structure and premises, may as a special permit be changed to another nonconforming use provided that the Zoning Board of Appeals, either by general rule or by making findings in the specific case, shall find that the proposed use is equally appropriate or more appropriate to the district than the existing nonconforming use. In permitting such change, the Zoning Board of Appeals may require appropriate conditions and safeguards in accord with the provisions of this Title.
- D. If any such nonconforming use is abandoned for a period of six (6) consecutive months, and such abandonment is intentional, then any subsequent uses of such property shall conform to the regulations applicable in the district in which such property is located. (Ord. 2002-06)
- E. Where nonconforming use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the nonconforming status of the land. Destruction for the purpose of this subsection is defined as damage to an extent of more than fifty percent (50%) of the value (including land value) at the time of destruction. However, acts of peril beyond the property owner's control shall not be grounds for discontinuing the non-conforming use.

SECTION 2-8-6 REPAIRS AND MAINTENANCE OF NONCONFORMING STRUCTURES

On any nonconforming structure or portion of a structure containing a nonconforming use, work may be done on ordinary repairs, of non-bearing walls, fixtures, wiring or plumbing, provided that the cubic content of the nonconforming structure or portion of structure shall not be increased.

If a nonconforming structure or portion of a structure containing a nonconforming use becomes physically unsafe or unlawful due to lack of repairs and maintenance and is declared by any duly authorized official to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired or rebuilt except in conformity with the Titles of the district in which it is located.

Nothing in this Title shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by an official charged with protecting the public safety, upon order of such official.

SECTION 2-8-7 USES UNDER SPECIAL PERMIT PROVISIONS

Any use which is permitted as a special use in a district under the terms of this Title (other than a change through Zoning Board of Appeals action from a nonconforming use to another use not generally permitted in the district) shall not be deemed a nonconforming use in such district but shall without further action be considered a conforming use.

1. Amendments may be proposed by the City Council, the Planning Commission, the Zoning Board of Appeals, or any person, firm, corporation, or organization, provided that any person, firm, corporation, or organization shall have a freehold interest, a possessory interest entitled to exclusive possession, a contractual interest which may become a freehold interest, or any exclusive possessory interest (with the concurrence of the person holding the freehold interest) which is specifically enforceable in the land which is described in the application for amendment. Any proposal shall set forth names of owners of all beneficial interests in any land trusts wherein a land trust is proposing such amendment.
2. An application for an amendment shall be obtained from and filed with the Zoning Officer. Such applications for zoning amendments shall be in a form so that the application, when complete, including required accompanying material, shall provide such information as required by the Planning Commission for its review. Application for amendments initiated by the Planning Commission, Zoning Board of Appeals or City Council shall include a copy of the minutes of that body approving the filing of an application for zoning amendment.

Applications for zoning amendments initiated by any person, firm, corporation or organization described above as eligible to petition for a zoning amendment, shall not be considered nor scheduled for public hearing until the zoning amendment fee has been deposited with the City Clerk to partially cover the cost of this procedure, and under no condition shall such sum or any part thereof be refunded for failure of said amendment to be enacted into law. See Title 11, Fee Schedule, for application for zoning amendment fee.

3. Once an application for an Amendment has been filed with the Zoning Officer, the Zoning Officer shall arrange proper legal notice, as required by law, and schedule a public hearing before the Planning Commission. (Ord. 1998-11)
4. The Planning Commission shall hold a public hearing on each application for zoning amendment at the time and place scheduled in the public notice. The hearing shall be conducted and a record of proceedings preserved in the manner as from time to time prescribed by the Planning Commission. Where additional information is required for the Planning Commission's review, the Commission, by official action, may continue the hearing to the time and place of the next Planning Commission meeting.
5. Within forty-five (45) days after the close of the hearing on a proposed amendment, the Planning Commission shall make its recommendations to the City Council. On applications for zoning amendments which would change the zoning classification of a particular property, the recommendation shall include findings of fact bearing on the decision. Such findings of fact shall relate to matters such as:
 - a) Existing uses of other property within the general area of the subject property;
 - b) Evidenced recent trends in land use development of the general area;
 - c) Any conditions which render the property less desirable or inappropriate for the uses to which it is presently zoned;
 - d) Availability of other areas already zoned for such uses;
 - e) The zoning amendment, if granted, serves the public interest and not solely benefit the property of the applicant alone.
 - f) The amendment would not be inconsistent with the objectives of the Comprehensive Plan.

In its findings of fact and recommendation to the City Council, the Planning Commission may recommend approval or disapproval, or recommend the change of zoning classification of the subject property to any other more restrictive zoning classification than specified in the public notice.

6. The City Council shall not act upon a proposed amendment to this Title until it shall have received a written report and recommendation from the Planning Commission except, however, an absence of action by the Planning Commission within forty-five (45) days of the public hearing of the matter shall be deemed to be a favorable recommendation. A favorable vote of two-thirds (2/3) of the Aldermen then holding office shall be required to adopt a zoning amendment not recommended by the Planning Commission. (Ord. 2002-12)
7. The City Council, after receiving the recommendation of the Planning Commission, or after the above prescribed time period, if no report is received, and without further public hearing may grant or deny any proposed zoning amendment or may refer it back to the Planning Commission for further study. In case of a written protest against any proposed zoning amendment signed and acknowledged by the owners of twenty percent (20%) of the frontage proposed to be altered, or by the owners of twenty percent (20%) of the frontage immediately adjoining or across an alley therefrom, or by the owners of twenty percent (20%) of the frontage directly opposite the frontage proposed to be altered, as to Titles or district, filed with the City Clerk, such amendment shall not be passed except by the favorable vote of two-thirds (2/3) of the Aldermen then holding office. (Ord. 2002-12)
8. The City Council shall cause to be published, no later than March 31 of each year, a zoning district map clearly showing the existing zoning uses, divisions, restrictions, regulations and classifications for the preceding calendar year. If, in any calendar year, there are no changes in the zoning uses, divisions, restrictions, regulations, and classifications, no map need be published for such calendar year.

The City Council may establish a fee to be charged each person desiring a copy of such map. Such fee shall be paid to the City Clerk who shall account for such moneys. Such fees shall be applied to defray the cost of publishing the zoning map.

F. Special Uses:

1. Applications for special use may be filed by any person having a freehold interest in land or a possessory interest entitled to exclusive possession (with the concurrence of the person holding the freehold interest), or a contractual interest, which may become a freehold interest, or an exclusive possessory interest, which is specifically enforceable. See Title 11, Fee Schedule, for application fee.

The accompanying material shall include a written statement signed by the applicant as to how the standards for the granting of the special use permit are met. These standards shall include:
 - a) That the proposed use will not adversely affect other property developed or able to be developed to the uses already permitted;
 - b) That adequate utilities, access roads, drainage and other necessary supporting facilities have been or are being provided;

 - d) That the standards for site development, will be such as to enhance the proposed use and its setting, screen or so locate parking, loading, storage, and less attractive accessory uses away from public view, and to otherwise complement the visual appearance of the area in which the proposed project is to be located. The applicant may offer or the Zoning Board of Appeals may require a development plan and landscape and screening plan as part of the applicant's written statement;

6. The granting of a special use by the City Council shall constitute authorization for the Zoning Officer to issue a zoning permit for the proposed use subject to any conditions imposed in the granting.
7. Special uses approved by the City Council shall be designated on the Zoning Map by a symbol. Failure of the applicant or other subsequent person, individual, firm, or corporation continuing the special use, from continually maintaining the use in a manner complying with the conditions under which the use was granted, shall constitute a zoning violation subject to the penalties of this Title.

In the event of termination of a special use, permitted uses under the applicable zoning classification shall be the only uses allowed and for which required permits may be issued.

8. Conditions may be imposed upon special uses under this Zoning Ordinance as amended from time to time as follows by recommendation of the Zoning Board of Appeals and approval of the City Council:

 - k) Also, prior to the granting of any special use, the Zoning Board of Appeals may recommend and the City Council may place such other conditions and restrictions upon the establishment, locations, construction, maintenance and operation of the special use as it is deemed necessary for the protection of the public interest and to secure compliance with applicable ordinances. In all cases in which special uses are subject to conditions, the Zoning Board of Appeals may recommend and the City Council may require evidence and guarantees as it may deem necessary as proof that the conditions stipulated in connection therewith are being and will be complied with. TITLE 2 ZONING

CHAPTER 13 PLANNED UNIT DEVELOPMENT [SPECIAL USE]

- 2-13-1 Purpose
- 2-13-2 Procedure
- 2-13-3 Location
- 2-13-4 Specific Content
- 2-13-5 Standards
- 2-13-6 Conditions and Guarantees
- 2-13-7 Inspections After Development

SECTION 2-13-1 PURPOSE

The purpose of the PUD regulations is to allow more creative and imaginative design for land developments than is possible under the more conventional zoning regulations. In this regard, the bulk and use regulations of any district may be modified within a PUD.

Preservation of natural site qualities, better urban amenities, more open space in and around the project, and a higher quality project are the desired results of the PUD process.

- A. The following objectives are sought through the use of the PUD procedure:
 - 1. To permit a creative approach to the use of land and related physical facilities that results in better design and development, with the inclusion of aesthetic amenities.
 - 2. To encourage a pattern of development to preserve natural vegetation, topographic, and geological features and environmentally appropriate features.
 - 3. To create a method for the permanent preservation of common open space for the continued use and enjoyment of the residents of the development.
 - 4. To provide for more usable and suitably located recreation facilities and other public and private facilities.
 - 5. To encourage a land use which promotes the public health, safety, comfort, morals, and welfare of the surrounding area, while allowing an economically viable project.
- B. The PUD is intended to provide for projects incorporating a single type or a variety of related uses which are planned and developed as a unit. The PUD should provide amenities otherwise required by law and often establishes facilities and open space greater than the minimums required by law.
- C. The unique and substantially different character of PUD requires their administrative processing as a “special use” in the Zoning Ordinance. PUD are more complex and of a different character than other special uses requiring the establishment herein of specific and addition procedures, standards, and exceptions to guide the recommendations of the Z.B.A. and action of the West Peoria City Council.

SECTION 2-13-2 PROCEDURE

A PUD may be granted as a special use in accordance with the procedures and standards of this Article and may depart from the normal procedures, standards, and other requirements of the other sections of the Zoning Ordinance.

Applications shall be made as hereinafter provided and shall be accompanied by the required plats and documents. Detailed plans, drawings, and other information as specified by the Zoning Ordinance shall be required at the time of various meetings and hearing. Each step shall be reviewed and certified by the Zoning Officer as being in accordance with the PUD requirements and the open meetings act.

A. Pre-application Procedure (Optional):

1. **Pre-Application Conference:** Prior to the filing of an application for approval of a PUD, the developer may request of the Z.B.A. an informal meeting to discuss the development of their land and submit an informal proposal therefore. The request for a Pre-Application Conference shall be a part of a regularly scheduled Z.B.A. meeting and shall be established by the West Peoria City Council from time-to-time and the materials set forth in this Article. The Pre-Application Conference is not mandatory. It is intended that the informal proposal submitted will be in preliminary conceptual form, and the substance and detail of the matters presented shall, beyond complying with this Article, be largely within the discretion of the developer. However, the Z.B.A. may request the submission of other specified information and discussion, and no commitments shall be given, nor shall statements or opinions of the Z.B.A. members be deemed binding. No recommendations need to be made to, or acted upon, by the West Peoria City Council.

B. Preliminary Plat Procedure:

1. **Purpose:** The purpose of the Preliminary Plat is to obtain tentative approval and/or commitments from the City that the plans, design, and program that the developer intends to build and follow are acceptable, and that the developer can reasonably proceed into final detailed architecture, engineering, surveying, and landscape architecture in anticipation of Final Plat approval and subsequent construction. This is a relatively detailed submission that assures the developer that their plan is acceptable and that he can invest the money necessary to prepare final plans with the assurance that the Final Plat and plans will be accepted if they substantially conform to the Preliminary Plat and plans. It is at this stage that the final modifications, adjustments and interpretations are made to the conceptual plan.
2. **Procedure:** A request for Preliminary Plat Approval of the PUD shall be submitted to the Zoning Officer who shall refer same to the Z.B.A. for a public hearing and report and recommendation as to whether or not the West Peoria City Council should approve the Preliminary Plat. The required procedure for review of the Preliminary Plat shall be:
 - a) Submission of the following:
 - (i) Application for review of a PUD Preliminary Plat including all information and materials required in this Article.
 - (ii) Four (4) copies of all required information shall be submitted on nothing bigger than eleven by seventeen inch (11" x 17") paper.
 - (iii) The application shall be accompanied by a fee which shall be established by the West Peoria City Council.
 - b) The Z.B.A. shall hold a public hearing on the application for a PUD, in accordance with the procedures of the Zoning Ordinance applicable to Special Uses.
 - c) Following the public hearing on the Preliminary PUD Plat and supporting data, the Z.B.A. shall, within fifteen (15) working days, unless an extension is requested by the petitioner, submit Findings of Fact and a written Recommendation for approval, modification or disapproval, and the reasons therefore, or indicate why a report cannot be rendered to the West Peoria City Council at that time.
 - d) The West Peoria City Council, after receipt of the Findings of Fact and Recommendation from the Z.B.A., shall approve, modify, or disapprove the Preliminary Plat within a period of ten (10) working days, unless an extension is requested by the petitioner. It is within the discretion of the West Peoria City Council to waive specific requirements.
 - e) In the case of approval, or approval with modification, the West Peoria City Council shall pass an ordinance granting the special use and indicate their approval of the Plat and arrange zoning map modifications as necessary. The West Peoria City Council may require such special conditions as they may deem necessary to

ensure conformance with the intent of the planning objectives of the city and the stated purposes of the PUD.

- f) Approval of a Preliminary PUD Plat shall not constitute approval of the Final Plat. Rather, it shall be deemed an expression of acceptance to the layout submitted on the Preliminary Plat as a guide to the preparation of the Final Plat which will be submitted for approval of the city and subsequent recording upon the fulfillment of the requirements of these regulations and conditions of the preliminary approval, if any. The Final Plat shall be approved if it conforms to the Preliminary Plat. The Preliminary and Final Plat may be filed and approved simultaneously, or the Final Plat may be filed and approved without a Preliminary Plat if all the land is to be developed at one time, and if all requirements of both the Preliminary Plat and Final Plat procedures are met. No building permit shall be issued for any structure until the Final Plat has been filed, approved, and recorded.

C. Final Plat Procedure:

1. **Purpose:** The purpose of the Final Plat is to designate with particularity the land subdivided into conventional lots as well as the division of other lands not so subdivided, into common open space and building sites. The Final Plat is intended as a document to be recorded. The Final Plat shows the exact location of facilities while the Preliminary Plat shows the general location of the same facilities.
2. **Procedure:** The Final Plat shall be submitted as a PUD Plat and shall conform substantially to the Preliminary Plat as approved and, if desired by the developer, may be submitted in stages with each stage reflecting the approved Preliminary Plat which is proposed to be recorded and developed; provided, however, that such portion conforms to all requirements of these regulations as approved by West Peoria City Council. The required procedure for approval of a Final Plat shall be:
 - a) The Final Plat and supporting data required in this Article shall be submitted, with appropriate comments by the Zoning Officer, to the Z.B.A. for certification that the Final Plat and other required documentation are in conformity with the Zoning Ordinance, and consistent with the approved Preliminary Plat and with any documentation corollary thereto, and conditions of approval thereof, and further for review and recommendation at a public hearing of all architectural, landscaping, and any other aesthetic or other matters remaining to be approved after the Preliminary Plat stage.
 - b) After review of the Final Plat, the Z.B.A. shall, within fifteen (15) working days, unless extension is required by the petitioner, recommend approval or disapproval, and the reasons therefore, to the West Peoria City Council.
 - c) The West Peoria City Council, after receipt of the Final Plat from the Z.B.A., shall approve or disapprove the Final Plat within a period of thirty (30) days, unless an extension is requested by the petition; and if approved, shall pass an ordinance authorizing the PUD and allowing the issuance of all necessary permits.
 - d) Permits are to be issued only after the Final PUD Plat and supporting data have been recorded with the County Recorder of Deeds and shall be issued in full conformance with the Zoning Ordinance. Proof of the recording of the Final Plat shall be provided to the Zoning Officer.
 - e) **Recording the Final Plat:** The Ordinance authorizing construction of the PUD shall be effective only upon recording of the Final PUD Plat and supporting data with the County Recorder of Deeds. The recording of the Final Plat shall inform all who deal with the PUD of the restrictions placed upon the land and act as a zoning control device.
 - f) **Submission Requirements:** The Final Plats must be submitted for approval in accordance with the scheduling approved by the Z.B.A. The Final Plat must be submitted not later than forty-five (45) days from the approval of the Preliminary

Plat and construction as authorized by the issuance of a building permit must begin within ninety (90) days of the date of filing of the Final Plat dealing with such construction. In the event that same is not done, the PUD Special Use shall be null and void and the Z.B.A. and/or the Plan Commission shall initiate such zoning changes as it deems necessary to serve the public interest. If construction falls more than six (6) months behind the building schedule filed with the Final Plat, the West Peoria City Council shall either extend the schedule period or initiate action to revoke the PUD Special Use. Extensions in the building schedule for a six (6) month period may be recommended and granted by the West Peoria City Council.

- g) **Occupancy:** Upon the completion of the PUD, a portion thereof, or an individual building or element of the PUD in full compliance with the Final PUD Plat and supporting data, then and only then may an Occupancy Permit be issued by the Zoning Officer to allow the use of a building or facility.

D. Changes in the Planned Unit Development:

The PUD project shall be developed only according to the ordinance approving the Final Plat and all supporting data. The Ordinance and supporting data together with all amendments shall be binding on the applicants, their successors, grantees, and assigns and shall limit and control the use of premises and location of structures in the PUD project as set forth therein.

Changes to the approved and recorded PUD may be made, as follows:

1. **Major Changes:** Changes which alter the concept or intent of the PUD including the increases in density, increases in the height of buildings, reductions of proposed open space, significant changes in building facility locations, changes in the development schedule, changes in road standards, or other changes may be approved only by submission of a new Final PUD Plat and supporting data and the “Final Plat” procedure. All changes to the “original” Final Plat shall be recorded with the County Recorder of Deeds as amendments to the Final Plat or reflected in the recording of a new “corrected” Final Plat.
2. **Minor Changes:** The Zoning Officer may approve minor changes in the PUD which do not change the appearance, concept, or intent of the development.

SECTION 2-13-5 CONDITIONS AND GUARANTEES

Prior to the granting of any PUD, the Z.B.A. with the approval of the West Peoria City Council **or the West Peoria City Council** may require, such conditions and restrictions upon the establishment, location, design, layout, height, density, construction, maintenance, aesthetics, operation, and other elements of the PUD as deemed necessary for the protection of the public interest, protection of the adjacent area, and to secure compliance with the standards specified in this Article.
